PROBLEM

If you understand the situation of Nigeria, you may be of the Opinion that, Nigeria is not at the level where it is supposed to be as a country especially in the area of Social Amenities and the Welfare of the Larger Society

Research shows that most Nigerians are not living the standard of Life they deserves.

We have over ten (10) security Agencies in Nigeria but we have been consumed by Insecurity

We have human right Commission but our rights are not protected

We have Consumer protection Commission in Nigeria yet our Consumptions are not protected

We have Public Complain Commission. Yet our Complains are not effected

We have Road Safety Corps in Nigeria, yet our Roads are not safe to drive on

We have Judiciary in Nigeria yet our Justice is never Justified justly especially if against the of people of higher classes.

We have Standard Organization of Nigeria yet our Markets are flooded with substandard products

We have Electoral Commission yet our Leaders are selected rather than elected

We have ministry of Agriculture yet we are dying of Hunger and Starvation due to insufficient Agricultural products availability

We have Ministry of Power yet over 70% of Nigerian can't experience Power Supply of more than 20 Hours in a week (if up to)

We have Ministry of Water Resources yet unquantifiable Nigerians has no access to clean water

We have National Identity Management Commission (NIMC) yet unquantifiable Nigerians can't be validly identified

We have National Automotive Design And Development Council, yet no Vehicle is Designed, Developed or manufacture in Nigeria

We have Ministry of Education, yet if you don't travel overseas you hardly get good education not withstanding the amount of the uneducated Nigerian roaming the street

We have Federal Ministry of Environment. Yet over 60 percent of our Environment are in a mess.

We have Federal Ministry of Land, Housing & Urban Development. Yet the Massive Populace are Homeless.

We have Federal Ministry of Youths & Sport Development. Yet neither the youth nor Sports are Developed.

We have National Emergency Management Agency. Yet our Emergencies are not managed managed properly nationally.

We have Federal Road Maintenance Agency. Yet our Roads are not mentioned, rather they are being consumed by gigantic Potholes.

We have over Sixty different Natural Mineral Resources. Yet, we still maintain Mono-economy

We have virtually no natural disaster. Yet, our national situations are worse than the situations of those that has natural disasters.

The economy has continued to decelerate.

Prices of Commodities rises without falling.

Unemployment & Underemployment has now hit the highest rate ever while chunk of Nigerians graduates annually with Ineffective Education.

We produce barely nothing. Yet, we consume almost everything produced by other nations.

Exportation is low. Yet Importation is High.

The number of beggars on the streets are increasing by the day. Our beggars had grown from native beggars to Corporate beggars.

The rate of suicide and Illegal Killing is uncontrollably on the surge.

Community Crisis, Tribal crisis & Religious Crisis has continued to grow unabatedly, just as the Insurgency unceasingly carry out brutal attacks almost on daily basis with the colourstration of Militancy, Banditry, Boko Haram, Secession Yahoo plus, Kidnapping Armed Robbery, etc.

Before now it used to be "Ghana Must Go" from our Country but now it is "Naija Must Go" from other people's Country

Corruption has become a legal tender. Corrupt Practices has become endemic in our beloved Country Nigeria. Corrupt people are now celebrated & idolized in our societies.

The common people and the youths of our nation in whose hands lie the present and future of our nation are the ones at the receiving end of these heart-wrenching developments

No nation can prosper with the above mentioned situations

Some of Our Leaders has been failing us & we have not been doing anything about it, they have failed us again and we are still unable to do anything about it. they will continue to fail us if we continue like this without doing anything about it.

If there is at all anything to learn from our nation's contemporary history on developments, it is simply the fact that our political Leaders and representatives are not the solution that our nation badly requires at this time.

The era of talking about our national problem is over. It is time for us to walk towards the solutions to our national problems.

The problem of a nation is the combination of the problem of all the citizen of that nation. Nobody can solve the problem of a nation alone, no Government can solve the problem of a nation alone. But when the people of a nation come together for the purpose of solving the problem of a nation, the problem of the nation can be solved.

What Chamber For Nigerian Freedom is doing right now is bringing Nigerians together against all odds for the purpose of solving the problems of Nigeria and/or the problems of Nigerians collectively non-violently with or without the Government's intervention
